

5+3W LED Headlamp with Sensor rechargeable

Productdescription

[Multifunctional Headlamp]: This headlamp has 5 lighting modes: COB LED - high / low, XPE LED - high / low + sensor
 Due to the enlarged COB LED area, it offers brighter light and a larger illumination area. This makes the environment appear clearer and hazards can be avoided.
 With the sensor, you can switch the headlamp ON and OFF by hand movement.

[1200mA Battery - Long Working Time]: With the built-in high-quality 1200mA lithium-ion battery, the headlamp will be recharged via USB connection (USB cable included) within only 3 hours.

[Flexible Adjustable & Waterproof]: The material of the headlamp is made of a flexible and waterproof (IPX 4) silicone. With the rubber strap, the headlamp can be adjusted according to the head size.

[Lightweight & Portable]: The ultra-lightweight design of only 70g makes the lamp convenient to carry and easy to store in backpack and bag.

[Wide Range of Applications]: High lumens (max. 380 lumens), super bright and waterproof is very suitable for outdoor use, such as fishing, hiking, running, cycling, hunting, camping, caving, repair. Also very suitable for people who need to work at night.

Specifications
